1. Company Introduction

The uexo brand is authorised and regulated in various jurisdictions, with the South African entity being owned and operated by Wealthlink (PTY) Limited. Wealthlink (PTY) Ltd. (hereinafter referred to as "uexo," or "Company" from this point on) has its address at 5th Street, Atrium On 5th, 9th Floor, Sandhurst, Johannesburg, 2196, South Africa. The company is authorised and regulated by the Financial Sector Conduct Authority in South Africa (FSCA) under the licence FSP number 50582 and has the CIPC company number 2019 / 514704 / 07.

2. Policy Introduction

This risk disclosure is intended to inform you of the risks that exist in trading activities on financial markets. You must recognize that these risks entail a chance of losing money while trading. This disclosure is informational and must not be considered a list of all possible risks.

3. Use of leverage

In margin trading, leverage can have a significant impact on your trading account even with minor changes in exchange rates and instrument prices. You must understand that if the market moves in the opposite direction to your open positions, your chances of losing your initial deposit and other funds intended to maintain your open positions are very high. You are fully responsible for the use of your own funds and accounting for the risks.

4. Instability of Financial Instruments

The quotes of most instruments traded on financial markets may vary considerably over the course of a day, which may bring you profit as well as loss.

5. Technical Risks

We are not responsible for financial losses arising from malfunctions in your electronic, communication, or information systems.

When working with the client terminal, you assume the risks arising from:

- ★ Failures in your equipment, software, and connection.

- ★ Errors in your client terminal settings.

- ★ Failure to update your version of the client terminal in a timely manner.

- ★ Your failure to follow the instructions for using the client terminal.

We are not responsible for errors that occur in the operation of the client terminal and will not compensate losses resulting from errors in the operation of the client terminal because we have a non-exclusive right to use the MetaTrader trading system (client terminal) for a specific purpose and do not have the right to provide technical support.

6. Market Risks

You agree that if market conditions become abnormal, the time required to process your orders and instructions may increase.

7. Risks Associated with the Laws of Individual Governments

You also assume responsibility for trading and non-trading operations performed within countries where they are restricted or prohibited by law.

8. Risks Associated with the Trading Platform

All of your instructions are sent to our server and executed in order. Therefore, you cannot send a second order until your previous order has been executed. If a second order is received before the first is processed, the second order will be rejected. You assume responsibility for any unplanned trading operation that may be executed if you resubmit an order before being notified of the results of the first order.

You must understand that closing the order window or position window does not cancel a submitted order.

You acknowledge that only the quotes received from our server are authoritative. If there is a problem in the connection between your client terminal and our server, you can retrieve undelivered quote data from the client terminal's quote database.

9. Communication Risks

You must be aware of the risk that information sent via unencrypted email may be accessed by unauthorised parties.

We are not responsible for financial losses arising from delayed or failed receipt of a company message.

You are responsible for the security of the credentials for your Personal Area and trading accounts as well as the confidential information that we send you. We are not responsible for financial losses arising from your disclosure of this information to third parties.

10. Force Majeure Events

We are not responsible for financial losses arising from force majeure events. These events are extreme and irresistible circumstances that are independent of the will and actions of the agreement participants, that cannot be foreseen, prevented, or eliminated, including but not limited to natural disasters, fires, man-made accidents and disasters, emergencies at utility works and on utility lines, DDOS attacks, riots, military actions, terrorist attacks, uprisings, civil unrest, strikes, and the regulatory acts of state- and local government authorities.

Do you have any questions?

If you are unsure of the things stated within this policy, or have any questions, please contact us either via our live chat features, which can be found on our website, or by emailing us at info@uexo.com.
