Such interests, relationships or arrangements may not necessarily be separately disclosed to our Customers at or prior to the time of the services offered. However, the Company, at a minimum, shall:

## 6. Purpose

The purpose of this Policy is to set out the Company's approach to identifying and managing conflicts of interest which may arise during the course of its business activities. The Policy applies to the Relevant Persons and refers to all interactions with all Customers.

This document sets out the Company's Policy in a format suitable for distribution to Customers and created in order to be appropriate and in relation to the size and organisational structure of the Company as well as the nature, scale and type of business it undertakes and provides.

The process entails the following factors:

- ★ Identification of conflicts of interest situations;
- ★ Management of conflicts of interest situations;
- ★ Disclosure of conflict of interest in cases where such situations identified cannot be mitigated/resolved; and
- ★ Retain updated records of identified conflict of interest situations.

## 7. Identification of Conflicts of Interest

While it is not feasible to define precisely or create an exhaustive list of all relevant conflicts of interest situations that may arise, as per the current nature, scale and complexity of the Company's business, the following list includes circumstances which constitute or may give rise to a conflict of interest entailing a material risk of damage to the interests of one or more Customers, as applicable.

When the Company offers securities to the Customer, the Company, an associate or some other person connected with the Company, may have an interest, relationship or arrangement that is material in relation to the Transaction concerned or that conflicts with the Customer's interest. The Company hereby identifies and discloses a range of circumstances which may give rise to a conflict of interest and potentially but not necessarily be detrimental to the interests of one or more of its Customers. Such a conflict of interest may arise if the Company, or any person directly or indirectly controlled by the Company or a Customer, is likely to make a financial gain, or avoid a financial loss, at the expense of a Customer or may have an interest, relationship or arrangement that is material in relation to the transaction concerned or that conflicts with the Customer's interest. In general, the Company adheres to a policy that the creation of conflicts of interest must, insofar as possible, be prevented.

This is applied through a combination of control measures that play a role in various aspects of our business operations, such as:

- ★ The 'four eyes' principle check: (at least) two (2) people are involved in all major decisions;
- ★ Separation of duties: tasks that, when combined, could result in a conflict of interest for an employee are divided up and allocated to different employees;
- ★ Clear written instructions to our staff, through which conflicts of interest are, insofar as is possible, prevented. These instructions range from a code of conduct, which prescribes the general rules of conduct, through to operational procedures in the various processes where conflicts of interest could arise (underwriting, claim management, accounting);
- ★ **Education and training:**  
Our Compliance department regularly provides internal training courses to our staff involving the proper application of the rules of conduct;
- ★ **Compliance:**  
Our Compliance Department (a department within the company who independently checks whether we are complying with the applicable laws) is involved in the introduction of new rules of conduct that will, insofar as is possible, prevent conflicts of interest from arising, among other things.

Based on our business model, experience and day-today services provided to our Customers, the Company has identified the following circumstances (not exhaustive) which may give rise to a conflict of interest:

- ★ The Company may be providing other services to associates or other Customers of the Company who may have interests in Securities which are in conflict or in competition with the Customer's interests;
- ★ the Company's bonus scheme may award its Employees based on the trading volume etc.;
- ★ the Company may receive or pay inducements to or from third parties due to the referral of new Customers or Customers' trading;
- ★ the Company or a Relevant Person has an interest in the outcome of a service provided to the Customer, which is distinct from the Customer's interest in that outcome;

- ★ the Company or a Relevant Person has a financial or other incentive to favour the interest of another Customer or group of Customers over the interests of the Customer;
- ★ the Company or a Relevant Person carries on the same business as the Customer;
- ★ the Company or a related person has a financial or other incentive to favour the interest of another Customer or group of Customers over the interests of the Customer;
- ★ The Company or a related person carries on the same business as the Customer.
- ★ The Company may act as the Counterparty to the Customer using its licence, and as such, the Company may act as the buyer when the Customer sells and the seller when the Customer buys; in the circumstances, therefore, the Company may establish the prices at which it will offer to trade with the Customer; such prices offered by the Company might not be the best prices available and the Company may offer different prices to different Customers. Since the Company may act as the buyer or seller in these transaction(s), the Customer should carefully evaluate any trading information received by the Company or any of its representatives.
- ★ the Company may be matching a Customer's Transaction with that of another Customer by acting on that person's behalf as well as for the Customer where the Company acting or seeking to act as principle and/or agent for both parties and/or to receive and/or retain commission(s) or other charges from both parties;
- ★ The Company or a Relevant Person is likely to make a financial gain, or avoid a financial loss, at the expense of the customer;
- ★ The Company or a Relevant Person has an interest in the outcome of a service provided to the Customer or of a transaction carried out on behalf of the customer, which is distinct from the Customer's interest in that outcome;
- ★ The Company or a Relevant Person has a financial or other incentive to favour the interest of another Customer or group of Customers over the interests of the Customer;
- ★ The Company or a Relevant Person carries on the same business as the Customer;
- ★ The Company or a Relevant Person receives or will receive from a person other than the Customer an inducement in relation to a service provided to the Customer, in the form of monies, goods or services, other than the standard commission or fee for that service.

It should be noted that the above circumstances which constitute or may give rise to a conflict of interest, are not conclusive. To be conclusive, the Company explicitly examines and investigates further each of the above circumstances on a case-by-case basis and undertakes additional due diligence measures in order to have solid evidence that the case in question constitutes indeed a conflict of interest.

  - To advise or procure another person to enter into such a transaction. The above arrangements have been designed to ensure that:

- Each relevant person is aware of the restrictions on personal transactions, and of the measures established by the Company in connection with personal transactions and disclosure.
- The Company is informed promptly of any personal transaction entered into by a relevant person, either by notification of that transaction or by other internal procedures enabling the Company to identify such transactions. In the case of outsourcing arrangements, the Company always ensures that the firm to which the activity is outsourced maintains a record of personal transactions entered into by any relevant person and provides that information to the Company promptly on request.

## 15. Employees' Understanding

All of the employees of the Company will be made aware of this policy in order for the Company to highlight and emphasise the importance of identifying and managing conflicts of interest.

All employees are required to adhere to the Company's Policy which requires employees to notify Compliance of all situations whereby an employee becomes aware of conflicting and/or inside dealing information. Employees are also required to notify Compliance of any situation where information received might constitute conflicting and/or inside information. The Compliance Department will record the circumstances of the situation and take such action as is necessary and appropriately inform the Senior Management of the Company.

Employees must never permit their personal interest to conflict with, or to appear to conflict with, the interests of the Company. When faced with a situation involving a potential conflict of interest, ask yourself whether public disclosure of the matter could embarrass the Company or you, or would lead an outside observer to believe a conflict of interest, including those in which you may have been placed inadvertently due to either business or personal relationship with customers, suppliers, business associates, or competitors of the Company, or with other Company employees.

Company's employees are also subject to rules designed to avoid conflicts of interest with activities they undertake outside the Company.

## 16. Gifts

Company's employees will not accept any gifts other than those considered normal in their line of business. Excessive gifts from Customers may result in a conflict of interest, something the Company is committed to avoiding. 'Normal gifts' refer to luncheon with the clients and Christmas/holiday gifts, wines and tickets for matches.

## 17. Declining to Act

The Company may decline to act for a customer in cases where it believes the conflict of interest cannot be managed in any other way. If the Company believes that there is conflict of interest in giving its service to its client, the Company will disclose the conflict and shall not proceed with the transaction. For example, purchase or sell a security or cause the purchase or sale of a security for any account while in possession of inside information relating to that security.

## 18. Assessment – Resolution – Notification & Record Keeping

The Compliance Department is responsible for assessing, managing and mitigating all conflicts of interest situations, including but not limited to, assessing the following:

- ★ Whether the situation represents an actual or potential conflict of interest for either the Customer or the Company,
- ★ Whether the situation identified is a perceived conflict for either the Customer or the Company and the risk that it may become an actual conflict,
- ★ How the conflict of interest can be appropriately managed and/or mitigated and the degree of materiality of the conflict of interest, and
- ★ Whether the conflict of interest identified requires immediate notification to Senior Management for further assessment, giving information on the seriousness of the risk and direction on the level of reporting/action required.

Further, the Company takes all the necessary actions to resolve conflicts of interest identified, including, but not limited to, the management and mitigation of the conflict(s) identified in such a way (i) as to prevent the conflict of interest arising in the future; (ii) as to ensure the interests of the Customer, or the Company or the Company's Employee are not permitted to disadvantage or lead to a loss for the Customer's and/or the Company's interests; and further (iii) communicate and notify the conflict of interest to the Customer in writing so that the Customer may decide upon a satisfactory course of action and make an informed decision about whether or not he/she wishes to proceed prior to engaging to a business relationship with the Company (new Customer) and/or proceed with further services provided by the Company (existing Customer).

Finally, the Compliance Department maintains a Conflicts of Interest Register of all circumstances in which a conflict of interest has been identified and/or arisen, containing the measures taken to mitigate or manage the conflict of interest identified and/or arisen, a description of the circumstances which constituted or may have constituted a conflict of interest, names of the persons involved, the name of the person responsible for the mitigation of the conflict, a description of the steps taken in order to mitigate the conflict - including customer disclosures and subsequent resolutions. The Conflicts of Interest Register is updated any time a conflict of interest has been identified and/or may have arisen and is kept for the durations of the business relationship with the Customer and for a minimum of seven (7) years after the conclusion of such business relationship.

The Company reserves the right to amend its policies at any time by making them public on its official website after approval by the FSA. The customer consents and agrees that the latest version of any of the Documentation and/or Policies shall be published on the Company's official website.

## 19. Disclosure

Where a conflict arises, and the Company is aware of it, it will disclose the conflict to the customer prior to undertaking investment business for that customer or, if it does not believe that disclosure is appropriate to manage the conflict, the Company may choose not to proceed with the transaction or matter giving rise to the conflict.

The Company reserves the right to review and/or amend its Policy and arrangements whenever it deems this appropriate, and the Customers will be given notice of the same 30 days prior to the policy being executed and approved by FSC.
